Empowering Every Learner

OUR STORY

Love2Learn Education was founded on a deep personal and professional commitment to supporting SEND students. As a SEND specialist teacher, school leader, and parent of a child with SEND, I witnessed first-hand the challenges to learning these children face in mainstream education. This empowered me to create a service that truly meets their needs.

What began as one-on-one support for students in their homes has grown rapidly through word of mouth, thanks to the success stories of our clients. Today, we are proud to work with schools and local authorities to offer online tuition to students unable to attend school, including those under EOTAS plans.

"As both an educator and a parent, I understand the profound impact that the right support can have on a child's life. At Love2Learn, we are committed to providing that support, helping each student reach their full potential."

CASE STUDY: SUPPORTING YEAR 11 STUDENTS AT VENTURE ACADEMY (SPECIALIST SEMH SCHOOL)

Last year, we partnered with Venture Academy, a specialist SEMH school, to provide targeted 1:1 support in Maths, English, and Science for Year 11 students whose mental health challenges were preventing them from attending school. These students were at risk of not sitting or passing their GCSEs, but with our flexible online and in-person sessions, they were able to reengage in learning and achieve their qualifications.

We delivered a hybrid model of in-person and online tuition, tailoring our approach to each student's needs and preferences. This model allowed us to provide highly individualised support, rebuilding students' confidence and ensuring they could progress academically.

KEY OUTCOME

All students successfully sat their GCSE exams, passed, and transitioned to post-16 education.

“Our SEND pupils made exceptional progress and all passed their GCSEs! Kirsty and her team were brilliant—thoughtfully selecting tutors who created bespoke plans and made a strong connection with our pupils.”
